

Georgia Clean Day

The Georgia Department of Agriculture is proud to announce it has secured limited funding for a one day Georgia Clean Day Pesticide Waste Collection Day. The event will be held at the **Gwinnett County Fairgrounds 2405 Sugarloaf Parkway Lawrenceville, GA 30045 from 8:00am – 3:00pm on July 22, 2015.** Georgia Clean Day is a program that gives everyone an

This is an excellent opportunity to dispose of pesticides that you have been holding because you had neither an economical nor legal means to dispose of them. Canceled and suspended pesticides by definition cannot be used and must be disposed of, often as hazardous waste. Some reasons to participate in this program are:

1. No disposal fees for those who participate in the 2015 program.
2. The disposal contractor secures all permits and approvals.
3. Disposal contractor takes possession of the waste and thereby becomes the generator.
4. Participants are not directly involved with state and federal regulatory agencies.
5. All materials eligible for destructive incineration will be destroyed.
6. Minimization of ongoing liabilities from continued storage of these wastes on your property.

opportunity to discard old, unusable, or cancelled pesticides to a hazardous waste contractor for disposal. Pesticides in leaking containers or disposed of improperly may cause environmental damage by contaminating water supplies or harming people and wildlife. Some pesticides that have been used in the past are now in need of proper disposal. Participation in the Clean Day Program remains free of charge and the Department will be requiring pre-registration for the events. For more information or to find an event please contact your local extension agent or Rick Hayes (Ph. 404-656-4958) with the Department's pesticide program.

All canceled, suspended, unusable and unlabeled materials classified as pesticides may be turned in for collection. Please refer to the brief list below to determine what types of materials will or will not be accepted at the event. Please list all pesticides to be turned in on the pre-registration form in order to estimate types and volumes to be collected. Any pesticides without a brand name, trade name, or active ingredient on the label may require analysis to determine the contents. Please label all unidentifiable pesticides as "unknown" on the pre-registration form.

ACCEPTABLE MATERIALS

Insecticides
Growth Regulators
Fungicides
Harvest Aid Chemicals
Nematicides
Bactericides
Herbicides
Miscellaneous pesticides

EXCLUDED MATERIALS
